Graham Heathcote

+1 (612) 999-8122 | grahamkheathcote@gmail.com | Minneapolis, MN, USA | U.S. and U.K. Citizen

EDUCATION

University of St Andrews, St Andrews, Scotland | BSc, Computer Science 2022-2026

- Upper Second-Class (3.7/4.0 GPA) degree, Debate Society Board Member, Senior Analyst on Investment Society.
- Awarded First-Class marks on Dissertation: Scalable Bayesian Inference using MCMC Algorithms
- Recreational football (soccer) and cricket, competitive ultimate frisbee.

The Blake School, Minneapolis, MN 2018-2022

- 8 AP Classes, 33 ACT, Academic All-American, ranked 14th nationally in Public Forum debate.

WORK EXPERIENCE

Software Engineering Intern May 2025 - September 2025

Cirtec Medical | Brooklyn Park, MN

- Built a multi-nodal Jenkins build server from the ground up, including Bitbucket and MSTest integrations.
- Utilized Docker to containerize Jenkins and several IDEs, to build and test firmware from a sandboxed environment.
- Worked in a corporate Agile environment, using Jira to organize and track tasks.

AI Research Intern September 2025 - December 2025

University of St Andrews | St Andrews, UK

- Collaborated with faculty to develop and evaluate extensions to the Unified Planning (UP) Python framework
- Implemented benchmark planning domains, including Rubik's Cube and Labyrinth, using the UP framework
- Led weekly team meetings to present findings, propose improvements, and coordinate implementation changes

Freelance Software Engineer December 2024 - Present

EchoLearn.org, SeekApp.uk | Remote

- Secured five-figure contracts developing apps, websites, and payment processing systems for startups.
- Led weekly meetings and provided status updates and blockers as one of two contracted developers.
- Built frontends with React and Tailwind, using Redux for state management and the PrimeReact component library.
- Developed backends with Nest.js, integrating Firebase Auth, MongoDB, and Firestore per client requirements.

Technology Intern May 2023 - September 2024

Center for Advanced Research on Language Acquisition (CARLA), University of Minnesota | Minneapolis, MN

- Designed and developed a website (HTML, JavaScript) supporting a platform that reached 10,000+ visitors
- Collaborated with a graphic designer to refine the CSS styling to ensure an accessible and appealing user experience.
- Created a YouTube channel with 50k+ audience reach; trained the team to localize content into 8 languages

Project-Based Technology Educator May 2024 - August 2024

Tech Academy Minnesota | Minneapolis, MN

- Taught classes of 10–20 middle school students, achieving the most in-demand class with the longest waitlist.
- Effectively supported ADHD and ADD students, ensuring an inclusive learning environment.

COMPUTING SKILLS AND AWARDS

- Confident in: Java, JS/TS (React, Express), Julia (Lux.jl, Turing.jl), Python, C, C++, C#, Docker, Jenkins, Jira
- 1st Place, St Andrews Computing Society Hackathon 2025; built eye-tracking based ATM transaction system.
- British Parliamentary Debate: 1st Place, St Andrews Debate Open; 2nd Place, Durham Open

SIDE PROJECTS

VapYap | ***API Integration*** **React, Django**

- Created and deployed a debate bot, building the frontend in React and the backend with Django.
- Integrated ChatGPT's API to generate context-aware speeches based on real-time debate scenarios.
- Designed and developed a responsive website to host the bot, which was successfully utilized in a weekend-long debate tournament against 150 other participants.
